Sparc

# How do I get the most from my time in this legacy project?

The new Al Mustapha education campus and cultural centre is a one-stop-shop, where you can study, source information, build relationships, actively engage within a multicultural environment, and learn about Islam.

The building is designed to welcome you to practise your salaat in an open, inclusive learning cultural centre.

The centre is designed around you. Well juxtaposed next to a serene parkland surroundings, and close to the Browns Plains Commercial hub, the centre is ideally designed to meet learning, practice and supporting needs of international and domestic students and the wider community.

You can talk to us about:

## Campus design and facilities:

Designed to accommodate the modern day student – provide a conducive, participative learning culture and a layout that is flexible to meet everyday community needs.

### **Cultural Centre and services:**

This is a flagship project that is unconventional and unique in design and layout – offering much more than the traditional styling of Islamic centres.

### **Project Schedule:**

Development approved, the project is ready for detailed design and construction.

D&C duration - 12 months.
